

Phase 2 Reopening Guidelines (Effective 5-18-2020)

Butler-Mason Child Care Safety Guidelines

The YMCA will be taking additional precautions to ensure the safety of your child this summer. The following are key safety measures that will be implemented for the summer program to prevent the spread of COVID-19.

1. Staff-to-child ratios in accordance with CDC and Georgia Department of Early Care and Learning guidelines. Class sizes are limited to no more than 20 people per state of Georgia guidelines.
2. Daily temperature and wellness checks for all children and staff.
3. Any child or staff with illness symptoms will be sent home.
4. Modified drop off and pick up procedures – staff will meet parents in the parking area to safely assist children in and out of the building (weather permitting).
5. Aggressive cleaning/sanitizing regimen before, during, and after programming time. Toys and games that cannot be cleaned effectively (i.e. soft toys with porous surfaces) will not be used.
6. Activity schedule that utilizes social distancing.
7. Prohibiting unnecessary visitors.
8. Meals and snacks will be eaten in classrooms rather than in common areas.
