

Phase 2 Reopening Guidelines for Camp

Safety Guidelines

The YMCA will be taking additional precautions to ensure the safety of your child this summer. The following are key safety measures that will be implemented for the summer program to prevent the spread of COVID-19.

1. Staff-to-child ratios in accordance with CDC and Georgia Department of Early Care and Learning guidelines. Group sizes are limited to no more than 20 people per state of Georgia guidelines.
2. Daily temperature and wellness checks for all children and staff.
3. Any child or staff with illness symptoms will be sent home.
4. Modified drop off and pick up procedures – parents will drop off and pick up at exact camp location.
5. Aggressive cleaning/sanitizing regimen before, during, and after programming time. Toys and games that cannot be cleaned effectively (i.e. soft toys with porous surfaces) will not be used.
6. Activity schedule that utilizes social distancing.
7. Prohibiting unnecessary visitors.
8. Following state guidelines, there will be no bus transportation, field trips, or overnight camp offered.
