

TENNIS LESSONS ARE BACK!

Instructor: During high school, Dan was a TCCHS singles player as the team won three straight Region championships and made a trip to the final four. Since then, Dan has continued developing his tennis skills, often competing with USTA teams. Beyond tennis, Dan is also experienced in working with students of all ages. He spent a decade in full-time youth ministry and has spent the past seven years speaking for events around the country with “Inflatable Stories” that are frequently focused on children and families. Tennis is more than a sport for Dan because he sees how the lessons of perseverance, character, and faith learned on the court can help young players win at life.
